

Certificate of Analysis

Product name: Selective Suppression Probes (SSP) 48 RXN

Package contents:

(store at **-20°C**)

Cat. #	Component	Tube	Volume
800-00000	Selective Suppression Probes Custom	SSP	55 µL

Shelf life

All components are good for at least 6 months after shipping. Do not freeze thaw > 3 cycles.

Shipping conditions

Shipped on blue ice within 5 days

Protocol

1. When using RealSeq®-AC (cat. 500-00012/48) or RealSeq®-Biofluids (cat. 600-00012/48) NGS library construction kits SSPs are added in **Step 1 Adapter Ligation:**

Reagent Volume to add:

- SSP Agent 1 µL

Quality control

A sample from each lot is tested in library preparation and sequencing. The resultant target reads are compared to libraries prepared without SSPs. Each lot of SSPs reduces the target reads by at least an average of 95%.

Specific lot results are available upon request.

FOR RESEARCH USE ONLY and for In Vitro Use Only
